Processing times

- All fresh Placentas are processed within 24-72 hours
- Frozen Placentas are processed around 7 days
- Lotus Birth Placentas require the encapsulator to be present at the birth to ensure correct handling and preparation of the placenta, lotus birth placentas are processed within 24 hours of receiving the placenta for encapsulation.
- Rarely, placentas may need to be processed in your home. The fees will vary due to using your space and equipment and specialist knowledge, skill and time. This happens only under special circumstances. Processing times may vary.
